CAREER OBJECTIVE

Backend Developer with hands-on experience in building RESTful APIs and delivering end-to-end web applications for freelance clients. Experienced in database optimization, caching with Redis, and message-driven architecture with RabbitMQ. Seeking a Developer position where I can contribute to scalable backend systems and continue growing as a backend engineer.

WORK EXPERIENCE

Hopper Solution and Education

May 2025 - Jul 2026

Backend Developer and Business Analyst

Responsibilities:

- Designed and implemented RESTful APIs to support frontend-backend communication and improve response time.
- Optimized database queries through indexing and Redis caching to significantly improve system performance.
- Resolved bugs and enhanced existing features to improve system stability and performance.
- Served as a Business Analyst, responsible for analyzing existing databases, designing data models, and translating business requirements into optimized database schemas to support scalable backend systems.

TNHH Thuong mai va Dich vu Hung Thinh

Jan 2025 - Mar 2025

Intern Web Developer

Responsibilities:

- Developed and enhanced core features, improving overall system stability and maintainability.
- Participated in testing and bug fixing to reduce post-release issues.

SKILLS

Core Backend Skills:

-Java, TypeScript, JavaScript
-Spring Boot, NestJS, ReactJS, Redis, RabbitMQ
- PostgreSQL, MySQL, MongoDB

DevOps & Tools:

- Docker, AWS (EC2, S3 – basic)
- Git, GitHub, Postman

Methodology:

Agile, Scrum, Waterfall

Soft skills:

Teamwork, Data Analytics, Communication, Problem-Solving.

AI Tools & Applications

Claude code, Codex, Cursor, 9Router

ENGLISH

Reading and writing technical documentation

EDUCATION

Ho Chi Minh City University of Technology and Engineering

Dec 2025 - Present

Information Technology

GPA : 3.45/4

PROJECTS

Back End Developer & DevOps

Productions: <https://www.fsocial.online>

Description: Built a social media.

Git: <https://github.com/CangNgo/Fsocial>

Team Size: 1

Responsibilities:

- Designed and implemented backend services using Spring Boot and Spring Cloud.
 - Implemented asynchronous communication between services using RabbitMQ.
 - Applied Redis caching strategies to improve system performance.
 - Deployed and managed backend services using Docker on AWS.
-
